CARRARA

By extracting the mysterious colors of history, using white purity and elegant matte finish, the rich effects of native stone are presented, telling the story of a long history, as if embarking on a metaphorical journey of time.

Taking Italian quartz as the design blueprint, drawing inspiration from natural elements such as rocks, soil, plants, minerals, etc. in the environment, it transforms into a unique spatial vision. The color is rich and condensed, presenting a primitive and rustic natural style, becoming a model of avant-garde space home furnishings.

AUTUMN

Collect the natural texture of world-class precious wood to create a very modern autumn wood series. Through pure elements such as white wood grain, yellow wood grain and deep wood grain, the historical traces of trees are vividly displayed in front of us, and the life track of trees is recorded by their texture and breathing trend.
